ABSTRACT

Harvest of light geese (*Chen caerulescens*, *Chen rossii*) during the 2018 Illinois Light Goose Conservation Order was estimated at 103,322. An estimated 2,505 hunters participated in the 2018 Illinois Light Goose Conservation Order. Hunters spent an estimated 30,989 days afield during 2018, and the majority (61%) of the snow goose harvest occurred during the month of February. Due to changes in sampling of addresses and calculation of estimates, comparisons should not be made to years prior to 2014. Hunters were sampled from Harvest Information Program (HIP) registrants who reported they hunted snow and other light geese (including Ross' and Blue geese) during the 2017 Light Goose Conservation Order. Electronic calls were used by 85.1% of hunters, 79.9% used unplugged shotguns, and 61.4% reported hunting between sunset and ½ hour after sunset. About fifty-six percent of active snow goose hunters indicated an increase in effort over the past five years, and 46.5% of hunters had increased harvest of snow goose over the previous 5 years. Eighteen percent of active snow goose hunters used a guide or outfitter while hunting snow geese during the 2018 order.

OBJECTIVE

To survey hunters participating in the Light Goose Conservation Order (hereafter, spring) to determine their activities and harvests in Illinois, as well as their opinions toward specific waterfowl management issues.

METHODS

The sample frame for this survey changed in 2014 and we recommend closely examining confidence intervals when making any comparisons of results between results prior to 2014. The 2014 Harvest Information Program (HIP) registration was the first year in which hunters were asked if they hunted snow geese during the Light Goose Conservation Order the previous year. Addition of this question allowed for more precise sampling of likely participants since the 2015 Light Goose Illinois Conservation Order than did a random sample of Illinois State Waterfowl Stamp purchasers, the sampling method used in previous snow

goose hunter surveys in Illinois (Williams et al. 2013). A total of 3,000 waterfowl hunters were randomly selected from HIP registrants who reported they hunted snow geese during the 2017 Light Goose Conservation Order in Illinois and purchased a state waterfowl stamp. Hunters sampled were mailed an 8-page mail-back questionnaire (Appendix A) and cover letter (Appendix B) 17 May 2018. Non-respondents were mailed a thank you/reminder postcard (Appendix C) 1 June 2018, a second copy of the questionnaire and cover letter (Appendix D) 18 June 2018, and another thank you/reminder postcard 03 July 2018. A third copy of the questionnaire and cover letter (Appendix D) was mailed 18 July 2018. The number of snow goose hunters ($Hunt_{sp}$), days afield ($Days_{sp}$), birds crippled but not retrieved ($Crip_{sp}$) and harvest ($Harv_{sp}$) were calculated as follows:

$$\begin{aligned} Hunt_{sp} &= Hunt_r \frac{L_t}{n}, & Days_{sp} &= Days_r \frac{L_t}{n}, \\ Crip_{sp} &= Crip_r \frac{L_t}{n}, & Harv_{sp} &= Harv_r \frac{L_t}{n} \end{aligned}$$

Where:

$Hunt_r$ = number of respondents to the 2018 Illinois Spring Snow Goose Hunter Survey who reported hunting snow geese (adjustment for non-hunters is inherent),

L_t = total number of Harvest Information Program (HIP) registrants who indicated they hunted snow geese in Illinois during 2017-18 waterfowl hunting season,

n = number of respondents to the 2018 Illinois Spring Snow Goose Hunter Survey,

$Days_r$ = total number of days spent hunting reported by respondents,

$Crip_r$ = total number of birds crippled but not retrieved reported by respondents,

$Harv_r$ = total harvest of each species reported by respondents.

The 2018 estimates for number of hunters, days hunted, and snow geese harvested were based on 4,616 HIP registrants who reported they hunted during the 2017 Light Goose Conservation Order. Estimated snow goose harvest was not adjusted for reporting bias using 0.478 as has been done in previous years (for

discussion of this estimator related to waterfowl harvest, see Anderson et al. 1996). Ninety-five percent confidence intervals were calculated for number of hunters, days hunted, and geese harvested, as described in Lischka et al. (2006). We entered and analyzed data using SPSS 25.0 (IBM SPSS Inc. 2018). Due to changes in number of hunters sampled and calculation of estimates, comparisons to previous years' figures must be done with caution.

ORDER DATES AND BAG LIMITS

The 2018 spring goose order took place from 19 January to 31 March in the North Zone and from 1 February to 31 March in the Central, South Central, and South Zones. The order began in each zone the day after regular Canada goose (*Branta canadensis*) season closed. Hunters during the spring light goose order were required to have a state waterfowl stamp and hunting license, but were exempt from daily bag and possession limits, and needing a federal waterfowl stamp. Hunters were permitted to use unplugged shotguns, electronic calls, and to hunt from one half-hour before sunrise to half-hour after sunset; these liberalized regulations were not permitted during waterfowl seasons.

RESULTS

Harvest Results

The questionnaire was undeliverable to 81 addresses, reducing the mailing list to 2,919 individuals. A total of 1,224 questionnaires were returned, of which 1,054 were considered usable, for a 38% response rate. Approximately two-thirds (67.8%) of respondents reported that they hunt waterfowl other than light geese every year (Figure 1). Just under 18% of respondents reported that they did not hunt waterfowl (ducks and/or geese during the 2017-18 regular waterfowl season (Figure 2). A large majority (94.4%) of respondents participated in the regular duck season, 89.9% participated in the regular goose season, 52.8% participated in the September Canada goose season, and 46.0% in the September teal season during the 2017-18 hunting season (Figure 3). When asked about which species they hunted most often, 48.4% of respondents hunted ducks most often, 19.0% hunted geese most often, and 32.6% hunted ducks and geese equally (Figure 4). Of those who hunted during the regular goose season, 27% harvested snow geese (Figure 5), and harvested an

average of 15.78 (S.D. 43.81) snow geese. The majority (60.0%) hunted in the Central zone most often (Figure 6).

Figure 1. How often survey respondents hunt waterfowl other than light geese in Illinois ($n=1,019$).

Figure 2. Percentage of survey respondents who hunted waterfowl in Illinois during the 2017-18 waterfowl season ($n=1,025$).

Figure 3. The seasons that survey respondents participated in during the 2017-18 waterfowl hunting season ($n=843$). *Percentages do not add up to 100 because some hunters indicated they hunted multiple seasons.

Figure 4. Species hunted most often in Illinois harvested during the 2017-18 waterfowl season ($n=843$). goose

Figure 5. Percentage of respondents who hunt snow geese during the 2017-18 regular season ($n=843$).

Figure 6. Zone hunted most often during the 2017-18 regular waterfowl seasons ($n=843$).

Slightly more than half (54.3%) of respondents reported hunting snow geese during the 2018 Light Goose Conservation Order (Figure 7). Most (91%) snow goose hunters also hunted during the regular waterfowl seasons (Figure 8). Approximately 65% of these active hunters reported they hunted snow geese every year (Figure 9). More than half (62.1%) of active hunters reported hunting the Central Zone most often for snow geese (Figure 10).

Figure 7. Percentage of survey respondents who hunted snow geese in Illinois during the 2018 spring snow goose order ($n=1,054$).

Figure 8. Percentage of snow goose hunters* who hunted waterfowl in Illinois during the 2017-18 regular waterfowl season ($n=569$).

*Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order.

Figure 9. How often snow goose hunters* hunt the spring snow goose order in Illinois ($n=567$).

*Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order.

Figure 10. Zone hunted* most often during the 2018 spring snow goose order ($n=568$). *Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order.

During the 2018 Illinois spring snow goose order, an estimated 2,505 snow goose participants hunted for 30,989 days and harvested 103,322 snow geese (Table 1). In comparison to the 2017 order, hunter participation rose by 1.9% and snow goose harvest decreased 22.7% (Figure 11). Of respondents who indicated hunting snow geese ≥ 1 day, 57.1% hunted 10 days or less (Figure 12), and 10.3 % of hunters reported not harvesting any snow geese, whereas 24.1% harvested ≥ 100 snow geese (Figure 12). The fewest number geese were harvested in January (<1%), 60.6% of the harvest occurred during February, and 39.3% percent occurred in March (Table 2).

Mean harvest per hunter was 86 geese per hunter, and 105 geese per hunter when unsuccessful hunters are excluded. When hunters who harvested >100 geese are also excluded, mean geese harvested drop to 28 geese per successful hunter, respectively. A total of 6,864 snow geese were estimated to be downed but not retrieved by hunters this order.

Figure 11. Estimated Illinois Light Goose Conservation Order hunter participation and harvest across time.* Due to changes in number of hunters sampled and calculation of estimates, comparisons to previous years' figures must be done with caution.

Figure 12. Distribution of days afield per hunter and snow geese harvested per hunter for Illinois' during the 2018 Light Goose Conservation Order. *Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order.

Electronic calls were used by 85.1% of snow goose hunters; 79.9% reported using an unplugged shotgun during the spring snow goose order. A majority (61.4%) of hunters reported hunting up to ½ hour after sunset (Table 3). Half (50.2%) of hunters used magazine extensions when hunting snow geese (Figure 13), of which 85.0% reported that it resulted in a greater harvest (Figure 14). Snow goose hunters hunted most frequently on private land with permission (67.8%), followed by private land for a fee (26.2%) (Figure 15). The general locations in Illinois in which snow goose hunters live and concentrated their efforts is presented in Appendix E.

Figure 13. Hunters* who used a magazine extension while hunting snow geese in 2018 ($n=570$).

*Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order.

Figure 14. Did the extended magazine result in a greater harvest of snow geese? ($n=286$).

Figure 15. Type of land hunters* hunt most often for snow geese ($n=572$). *Hunters who reported they hunted snow geese 1 day or more in Illinois during the 2018 spring order. **Percentages do not add up to 100 because some hunters indicated they hunted multiple types of land.

Satisfaction with the 2018 Light Goose Conservation Order

Approximately 48 percent of hunters perceived an increase in the number of snow geese seen during the spring snow goose orders over the past 5 years (Table 4). Approximately 46.5% of hunters stated that the number of snow geese they harvested increased over the past 5 years (Table 5). Over half (61.9%) of active hunters reported that harvesting snow geese was important, very important, or extremely important to their hunting experience (Table 6). Whereas among those who did not hunt this year 49.8% felt it was not at all important or slightly important. When asked about the dates of the 2018 Light Goose Conservation Order, most active hunters (68%) felt that the dates were about right, whereas those that did not hunt in 2018 were split between “not sure” and about right. (Figure 16). About 66% of active snow goose hunters were satisfied with the number of snow geese they saw during the 2018 spring order and 57.1% were satisfied with the number of snow geese that migrated through their hunting areas (Table 7). Active hunters were least satisfied with the number of snow geese they harvested (30.2%). Whereas, those who did not hunt snow geese in 2018 were dissatisfied with “the amount of shooting”, “number of geese harvested”, and “amount hunting got in”.

Figure 16. How respondents feel about the dates of the 2018 spring snow goose order for the area they hunted ($n=994$).

Most of the hunters who were active during the 2018 Light Goose Conservation Order had increased their snow goose hunting efforts (56.2%) over the past 5 years, while 28.8% reported no change in effort (Table 8). Whereas, those who did not hunt were more likely to indicate there was no change in their effort (47.3%) or their effort had decreased (36.2%). Active hunters' top reasons why they were interested in snow goose hunting were "to experience natural settings" (93.1%), "to bring friends/family together (92.5%), and "to assist in conservation efforts" (92.4%) (Table 9). Those who did not hunt in 2018 indicated that "to be outdoors" and "to enjoy nature" were the most important reasons. The most common reasons that prevented all hunters from participating during the spring snow goose order was not enough time (Table 10).

When asked to compare their hunting skills with other hunters, most of those who did not hunt during the 2018 Light Goose Conservation Order labeled their "overall skill as a snow goose hunter" as novice or less than intermediate (52.5%), whereas the majority of those who did hunt labeled their skills as intermediate (41.7%) or greater (37.2%) (Table 11). Active hunters were more likely to agree with every measured attitude regarding Snow goose hunting (Table 12). Active hunters had the highest level of agreement with "I enjoy discussing waterfowl hunting with friends" (95.0%), "waterfowl hunting is an important way for them to spend time with friends" (93.1%), and "I have close friendships based on a common interest in waterfowl hunting" (87.6%) (Table 12).

Use of guides and outfitters

Figure 17. Percent of snow goose hunters who have ever used a guide/outfitter for snow goose hunting.

Figure 18. How frequently a guide is used for snow goose hunting ($n=244$).

Most hunters have never used an outfitter to hunt snow geese (Figure 17), although those who hunted this year were more likely to indicate they have. Almost a third use an outfitter/guide every time (33.6%) and 32% use one rarely (Figure 18). Difference among those who were active hunters and those who did not hunt were not reported due to small sub-sample size. Among those who hunted this year and had ever used an outfitter/guide 60.2% used an outfitter in 2018, and 17.5% of all the 2018 hunters used a guide.

Hunter characteristics

Active Light Goose Conservation Order hunters were younger ($M = 45$ years old) than non-hunters ($M = 49$ years old), and almost all (97.3%) were male (Figure 19). Active hunters have been hunting snow geese during the spring in Illinois for an average of 7.3 years compared to 5.4 among those who did not, and have hunted regular waterfowl in Illinois for an average of 23.3 years as compared to 22.3. The majority (61.6%) of respondents have introduced someone to snow goose hunting (Figure 20). When asked what type(s) of snow goose decoys they use during a typical hunt, 87.6% used shells, 86.9% used full-body decoys, and 81.3% used rags/sock decoys (Table 13). A summary of expenses related to snow goose hunting are found in Table 14, and 75% of hunters indicated that these were typical of an average snow goose hunting year. Purchasing more decoys was the most common reason for increasing order costs, followed by increase in gas/lodging prices.

Hunting less was the most common reason for a cheaper order. The counties with the most respondents were Madison (4.9%), Tazewell (3.8%), St. Clair (3.4%), Peoria (3.3%), and Adams (2.9%).

Other	27	\$ 2,421	\$ 4,126
Total order expenditures	525	\$ 6,239	\$ 12,358

^a Hunters were respondents who hunted ≥ 1 day for Snow goose in Illinois.

Illinois Spring Snow Goose Hunter Survey

2018 Season

Illinois Department of Natural Resources
Division of Wildlife Resources
and
Illinois Natural History Survey

The Department of Natural Resources is requesting disclosure of information that is necessary to accomplish the statutory purpose as outlined under the Illinois Compiled Statutes, The Wildlife Code, Chapter 520. Disclosure of information is voluntary. This study is funded by the federal Wildlife Restoration Fund through your purchase of sporting arms and ammunition.

THANK YOU FOR YOUR COOPERATION!

All of your responses will be kept confidential.
Please return this survey in the postage-paid return envelope provided.

Section 1. Conservation Order (Spring) Snow Goose Hunting Effort and Harvest. Please take a few minutes to complete the following questionnaire to help us evaluate the 2018 **Spring Conservation Order snow goose hunting season even if you did not hunt snow geese. All questions pertain to Illinois hunting. Please note: "Snow geese" also includes Ross' and Blue geese.**

- Did you hunt snow geese in Illinois during the **2018 Conservation Order (spring snow goose) season** (North Zone: **Jan. 19-March 31, 2018**; Central, South Central, and South Zones: **Feb. 1- March 31, 2018**)?
Do not include hunting snow geese during the regular Canada goose season. (Please check one.)

☐ Yes ☐ No (Please skip to **Question 13**)
- Which of the following best describes how often you hunt **spring snow geese** in Illinois?
☐ Every year ☐ Most years ☐ Occassional years ☐ Rarely
- In which zone did you **hunt snow geese most often** during the 2018 **spring snow goose season**? (Please check one.)
☐ North Zone ☐ Central Zone ☐ South Central Zone ☐ South Zone
- On which of the following types of land did you hunt snow geese during the 2018 **spring snow goose season**? (Please check **all that apply**.)
☐ Public land owned/managed by IDNR ☐ Other public land
☐ Private land I/family own ☐ Private land where I had permission to hunt
☐ Private land I paid to access ☐ Other (Please identify): _____
- Please indicate **your** effort- not your hunting party's effort- and harvest in the following table. **Include only harvest that occurred during the spring snow/blue and Ross' goose season; do not include snow goose harvest during the regular Canada goose seasons.** Report the counties in which you hunted, number of days you hunted, and geese harvested for the time period in which you hunted snow geese. Include only geese you harvested and days you hunted in Illinois. Count part of 1 day as 1 day. **Please refer to the county/zone map on the inside cover to answer this question. Please note, during January only the North zone is open to hunts.**

	County hunted	Days hunted	Geese harvested	Geese hit, but not retrieved
January (North only):				
February:				
March:				

- Please indicate which of the following methods you used to hunt snow geese during the **2018 spring snow goose season**? (Please check **all that apply**)
☐ Electronic calls ☐ Unplugged shotgun ☐ Hunting from sunset to ½ hour after sunset

7. Did you use a magazine extension during the **spring snow goose season**? _____ Yes _____ No

7a. If “Yes,” did the extended magazine result in a greater harvest of geese? _____ Yes _____ No

8. Approximately how many of each of the following types of decoys do you use during a typical hunt?

Number of decoys used						
	None	1-100	101-250	251-500	501-1000	1000+
Kites/Flags						
Rags/sock decoys						
Shells						
Full-bodied decoys						
Floater decoys						
Silhouettes						

9. Did you use a **spinning-wing decoy(s)** to hunt snow geese? _____ Yes _____ No (**Skip to question 10**)

9a. If “Yes,” how many spinning-wing decoys did you typically use? _____ Decoys

10. Did you use a moving multi-decoy system (**Vortex, etc.**) to hunt snow geese? _____ Yes _____ No

11. How does the number of snow geese you saw during the **spring snow goose season** compare to the **last 5 years**?

Please circle the number that matches your response.

Decreased Considerably	Decreased Moderately	Decreased Slightly	No Change	Increased Slightly	Increased Moderately	Increased Considerably
1	2	3	4	5	6	7

12. How does the number of snow geese you harvested during the **spring snow goose season** compare to the **last 5 years**? Please circle the number that matches your response.

Decreased Considerably	Decreased Moderately	Decreased Slightly	No Change	Increased Slightly	Increased Moderately	Increased Considerably
1	2	3	4	5	6	7

13. Have you **ever** used a guide or outfitter while hunting snow geese during the **spring snow goose season**?

_____ Yes _____ No (**Skip to question 14**)

13a. If “Yes,” on average for all years you have hunted snow geese, how often do you use a guide or outfitter while hunting during the **spring snow goose season**?

_____ Every time _____ Most times _____ Occasionally _____ Rarely

13b. Did you use a guide or outfitter while hunting snow geese **during the 2018 season**?

_____ Yes _____ No

14. How has your spring snow goose hunting **effort changed over the past 5 years?** Please circle the number that matches your response.

Decreased Considerably	Decreased Moderately	Decreased Slightly	No Change	Increased Slightly	Increased Moderately	Increased Considerably
1	2	3	4	5	6	7

15. How did you feel about the dates of the 2018 Conservation light goose season for the area where you hunted most often? (Please circle **one**.)

Too early	About right	Too late	I am not sure
1	2	3	4

16. Have you ever introduce someone to snow goose hunting? _____ Yes _____ No

17. To what extent do you **agree** with the following statements as your **reasons for Snow Goose Hunting?**

	Strongly Disagree	Disagree	Slightly Disagree	Neither Agree or Disagree	Slightly Agree	Agree	Strongly Agree
To participate in conservation.	1	2	3	4	5	6	7
To contribute to wildlife management.	1	2	3	4	5	6	7
To assist in conservation efforts.	1	2	3	4	5	6	7
To be outdoors.	1	2	3	4	5	6	7
To enjoy nature.	1	2	3	4	5	6	7
To experience natural surroundings.	1	2	3	4	5	6	7
To test my abilities.	1	2	3	4	5	6	7
To develop my skills and abilities.	1	2	3	4	5	6	7
For challenge or sport.	1	2	3	4	5	6	7
To share quality time with family/friends.	1	2	3	4	5	6	7
To do something with family/friends.	1	2	3	4	5	6	7
To bring family/friends closer together.	1	2	3	4	5	6	7

18. Please check which of the following prevents you from hunting during the **spring snow goose season**. (Please check **all that apply**).

_____ No place to hunt snow geese

_____ No snow geese where I live/hunt

_____ Not enough time

_____ They're too hard to hunt

_____ Equipment is too expensive

_____ Don't know how to hunt them

_____ Not enough people to hunt with

_____ Hunting techniques conflict with my ethics

_____ Other (please indicate: _____)

Section 2. Hunting Skills and Satisfaction. Please tell us about yourself as a hunter by answering the following statements.

1. Please answer the following questions regarding your attitudes toward waterfowl hunting.

	Strongly Disagree	Disagree	Slightly Disagree	Neither Agree or Disagree	Slightly Agree	Agree	Strongly Agree
Waterfowl hunting is one of the most important activities in my life.	1	2	3	4	5	6	7
I spend a lot of time in the off-season planning for waterfowl hunting.	1	2	3	4	5	6	7
I would rather go waterfowl hunting than do any other recreation.	1	2	3	4	5	6	7
My closest friends are waterfowl hunters.	1	2	3	4	5	6	7
I spend a lot of time before the season scouting the area I will hunt.	1	2	3	4	5	6	7
I plan vacation time around waterfowl seasons.	1	2	3	4	5	6	7
Waterfowl hunting is an important way for me to spend time with my friends.	1	2	3	4	5	6	7
I enjoy discussing waterfowl hunting with friends.	1	2	3	4	5	6	7
Waterfowl hunting determines much of my lifestyle.	1	2	3	4	5	6	7
I have close friendships based on a common interest in waterfowl hunting.	1	2	3	4	5	6	7

2. Please rate **your skills** as compared to other snow goose hunters.

	Novice	Between novice and intermediate	Intermediate	Between intermediate and expert	Expert
Skill calling in snow geese	1	2	3	4	5
Snow geese harvested per shots taken	1	2	3	4	5
Overall skill as a snow goose hunter	1	2	3	4	5

3. Please rate how important harvesting snow geese is to your hunting experience by circling the number that matches your response.

Not at all Important	Slightly Important	Moderately Important	Important	Very Important	Extremely Important
1	2	3	4	5	6

4. Please rate your **SATISFACTION with the 2018 spring Conservation Order (snow goose) season in Illinois** for each of the following by circling the number that matches your response.

	Very Dissatisfied	Dissatisfied	Neither Dissatisfied or Satisfied	Satisfied	Very Satisfied
Number of snow geese you saw.	1	2	3	4	5
Mid-season matched peak of snow goose migration.	1	2	3	4	5
Amount of shooting you got in.	1	2	3	4	5
Amount of time you spent snow goose hunting.	1	2	3	4	5
Number of snow geese you harvested.	1	2	3	4	5
Weather during the season.	1	2	3	4	5
Number of snow geese that migrated through areas you hunted.	1	2	3	4	5

Section 3. Regular Waterfowl Seasons. The following questions allow us to understand more about the hunters who waterfowl in Illinois and refers to those seasons completed before the Light Goose Conservation Order season begins.

- Which of the following best describes how often you hunt **waterfowl other than** light geese in Illinois?
☐ Every year ☐ Most years ☐ Occassional years ☐ Rarely ☐ Never
- Did you hunt waterfowl (ducks and/or geese) in Illinois during the **2017-18 regular waterfowl seasons**?
☐ Yes ☐ No (Please skip to **Section 4**)
- Which of the following seasons did you participate in? (Please check **all that apply.**)
☐ September Teal season
☐ September Canada Goose season
☐ Regular Duck season
☐ Regular Goose season
- In which zone did you **hunt waterfowl most often during the 2017-18 regular waterfowl seasons**? (Please check **one.**)
☐ North Zone ☐ Central Zone ☐ South Central Zone ☐ South Zone
- Which did you hunt most often? (Please check **one.**)
☐ Ducks ☐ Geese ☐ Both ducks and geese equally
- Did you harvest any snow geese during the **regular goose season** in Illinois during the 2017-18 goose season?
☐ Yes (How many?) ☐ No

Section 4. Conservation Order (Spring) Snow Goose Expenditures in Illinois. If you hunt Snow geese in Illinois: Think of your typical hunt. Please report your Spring Snow goose hunting expenditures for a **typical SNOW GOOSE hunt in Illinois, services used during the entire season, plus equipment purchased** that can be used for multiple years.

Record your estimated expenditures for a **typical snow goose hunting trip** in Illinois.

<u>Items Purchased during snow goose hunting trip</u>	<u>Estimated TOTAL Season Expenditures</u>

| 22. Other (Please list): _____ | \$ _____ .00 |

23. Were your expenses in Illinois **during the 2018-Spring Snow Goose** season typical of past years?

_____ Yes they were the same as previous years

_____ No, they were higher than past years due to (Please list): _____

_____ No, they were lower than past years due to (Please list): _____

24. About how far, on average, did you travel to hunt snow geese in Illinois during 2018? _____ Miles

Section 5. Background Information. The following questions allow us to understand more about the people involved in snow goose hunting in Illinois. All responses are kept confidential.

1. How many years have you been **waterfowl hunting in Illinois?** _____ Years
2. How many years have you been hunting during the **spring snow goose season** in Illinois? _____ Years
3. Please give your age. _____ Years
4. What is your gender? _____ Male _____ Female
5. What is your county of residence? _____ County

Comments:

THANK YOU FOR YOUR TIME AND ASSISTANCE!
Please return this survey in the postage-paid envelope provided.

The Illinois Department of Natural Resources receives federal assistance and therefore must comply with federal anti-discrimination laws. In compliance with the Illinois Human Rights Act, the Illinois Constitution, Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act as amended, and the U.S. Constitution, the Illinois Department of Natural Resources does not discriminate on the basis of race, color, sex, national origin, age, or disability. If you believe you have been discriminated against in any program, activity, or facility, please contact the Equal Employment Opportunity Officer, Department of Natural Resources, One Natural Resources Way, Springfield, IL 62701-1787, (217) 782-7616 or the Officer of Human Resources, U.S. Fish and Wildlife Service, Washington, D.C. 20240.

ILLINOIS NATURAL HISTORY SURVEY

Prairie Research Institute
University of Illinois at Urbana-Champaign

Appendix B

Dear Waterfowl Hunter,

You have been chosen as one of a select group of Illinois snow goose hunters to provide information about your snow goose hunting activities. Enclosed is a survey questionnaire regarding your snow goose hunting experiences in Illinois during the 2018 Conservation Order (spring) season. We ask you to please take a few moments to complete this questionnaire and return it in the envelope provided **even if you were not successful or did not hunt snow geese during the Conservation Order (spring) season.**

The information you and other selected hunters provide our biologists is vital for proper snow goose management and allows us to safeguard snow goose populations while maximizing hunting opportunities.

This survey is limited to those hunters selected. Please take a few minutes to complete the enclosed questionnaire and return it in the postage paid envelope provided.

If you do not wish to participate, please return the blank questionnaire so we can remove your name from our mailing list.

You may access the results of this and other studies of hunters and hunting in Illinois at <http://www.inhs.illinois.edu/programs/hd/> or like us on Facebook at the Human Dimensions Research Program - Illinois Natural History Survey page to be notified when results are available. You may also find information about Illinois Department of Natural Resources wildlife management programs and wildlife in Illinois at <http://dnr.state.il.us/orc/wildliferesources/>.

If you have questions regarding this study, please call us at (217) 244-5121.

Thank you for your time and assistance.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig A. Miller".

Craig A. Miller
Human Dimensions Research Program

816 South Oak Street,
Champaign, Illinois 61820 USA

Appendix C

Dear Waterfowl Hunter,

Recently you were mailed a questionnaire about snow goose hunting during the Conservation Order (spring) season. We have not yet received your response. **If you have already returned the questionnaire, we thank you. If you have not returned the questionnaire, please do so as soon as possible. Your input is very important!**

Your name and address will be deleted from our mailing list when your questionnaire is received.

Thank you for your cooperation.

Appendix D

ILLINOIS NATURAL HISTORY SURVEY

Prairie Research Institute
University of Illinois at Urbana-Champaign

Dear Waterfowl Hunter,

You recently received a survey questionnaire requesting information about snow goose hunting activities during the 2018 Conservation Order (spring) season. If you recently returned your questionnaire, we thank you. If not, please take a few minutes to complete the enclosed questionnaire and return it in the envelope provided **even if you were not successful or did not hunt snow geese during the Conservation Order (spring) season.**

The information you and other selected hunters furnish our biologists is vital for proper waterfowl management and allows us to safeguard waterfowl populations while maximizing hunting opportunities.

If you do not wish to participate, please return the blank questionnaire so we can remove your name from our mailing list.

Please take a few minutes to complete the portions of the questionnaire that pertain to you and return it in the envelope provided. If you have any questions please call 217-244-5121.

Thank you for your time and assistance.

Sincerely,

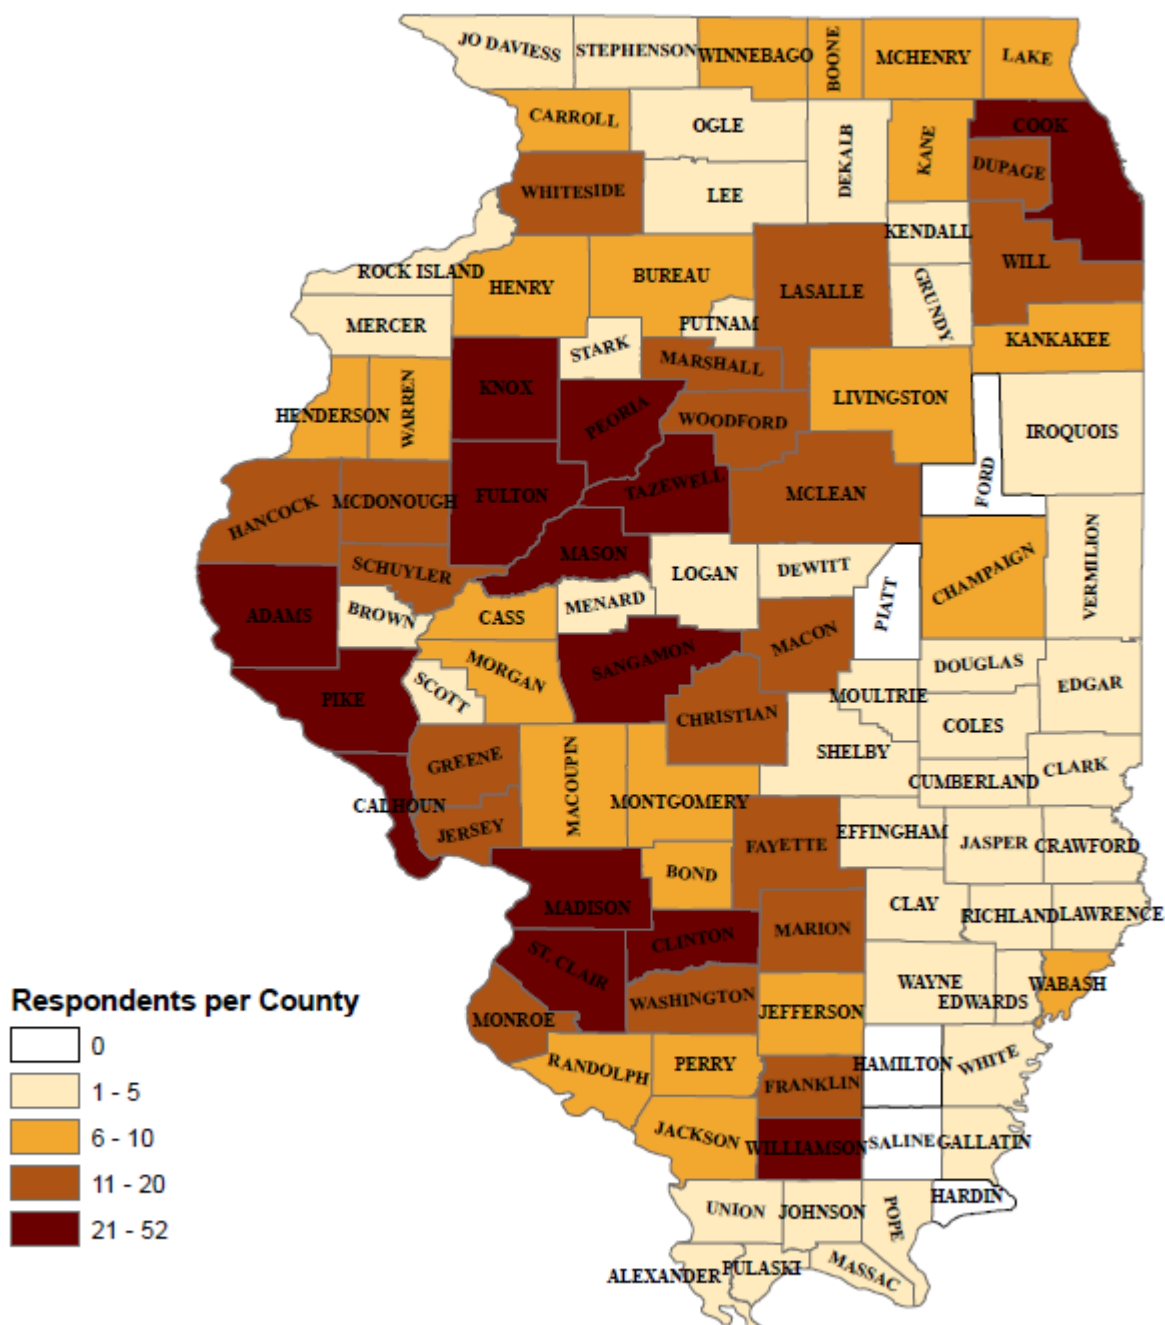

A handwritten signature in black ink, appearing to read "Craig A. Miller".
